Colombo, September 2, 1908.

No. 155.—In exercise of the powers conferred by section 4, sub-section (2) of the Indian Ports Act, 1889 (X of 1889), and in pursuance of powers thus on the subject, the Governor in Council is pleased, after considering the objections advanced in respect of the Boat rules for the Port of Madras and for the other ports published in the Port St. George Gazette of the 25th January 1908, to make the following revised rules:—

The rules will come into effect from the date of publication of this notification.

BOAT RULES FOR MADRAS PORT.

Rules made by the Government of Madras under section 6 of the Indian Ports Act, 1889 (X of 1889), for licensing and regulating steamers plying for hire, and flats, cargo, passenger and other boats plying, whether for hire or not and whether regularly or only occasionally, in, or partly within and partly without, the Port of Madras, and for determining the quantity of cargo or the number of passengers to be carried by any such vessels.

No person, either as owner or as agent, shall use any boat (other than steamers plying for hire) to carry goods or passengers to or from any ship or vessel at the port, or within the time being, or from place to place within the limits of the port, unless such person shall hold a license—vide Appendix A—granted by the registering officer as to such boat, and unless the boat or stand shall have been registered. INDIAN SALT-DUTIES BILL.

The Hon'ble Mr. Murray moved that the Bill be taken special provision for the payment of duty on salt be given over to the consideration of the Council. He said:—My Lord, when the Bill was introduced it was explained that the intention of the measure was to provide for the better management of a system of limited outlets for the duty instead of open payment as such. Which is the new

in most premises. The object is to provide cheap credit for the business of distributing such and thereby to help in cheapening the cost of salt to the consumer. The Bill has been generally approved by the Local Government and Administration to whom it was referred for opinion. A few suggestions have been put forward regarding the details of the system, but all these can be dealt with when the time comes for framing the rules, and most of them affect the principle of the savings itself. The only criticism of major importance has been the expression of some anxiety that the credit system will drive the wholesale trader into the hands of the big capitalist and in this way tend to frustrate the object where we have in view. We suggest that this result is one to be deprecated, although it seems possible to avert it by fixing a maximum limit to the amount of credit which may be given under the rules. But the real answer to the objection is that the Bill is an entirely permissive one; there will be no compulsion whatever to apply it to any area where an existing system is working satisfactorily, and even if it is applied and found subsequently to be unworkable local authorities can always be satisfied without further legislation. These reasons convince us amply to enter the Bill as it stands or in such that it be referred to a Select Committee."

The motion was put and agreed to.

The Hon'ble Mr. MANN moved that the Bill be passed.

The motion was put and agreed to.

ASSAM LABOUR AND EMIGRATION (AMENDMENT) BILL.

The Hon'ble Mr. HARTY moved that the Bill be passed the Assam Labour and Emigration Act, 1905, be taken into consideration. He said:—"My Lord, the only criticism we have received on the draft Bill has been in connection with the term 'labourer' as defined in section 3 (1) (i) of Act VI of 1905 and with the modifications to be introduced in subsections' enactment under Chapter III.

"With regard to the former, it has been pointed out that, as it is intended to dispense with the taking of a labour contract, persons recruited under the revised procedure of the Bill will not be labourers under the Act, and any provisions of Chapters III and IV relating to labourers which may be retained by the sanction of the Local Government to govern their movements, will not apply to such persons. The Bill, however, enables the Local Government to prescribe any conditions it pleases when relaxing any of the requirements of those Chapters, and in doing this the sanction the Local Government may make it a condition that such provisions of the Chapters as it desires to retain shall apply to the persons recruited under the Bill as if they were labourers.

"With regard to the second point there is no intention of in any way relaxing the procedure under which recruitment is carried on by contractors, further than to enable the actual placing of the emigrant under a contract to be forgone. The emigrant will have to be placed before a Registering Officer, who will satisfy himself that no coercion, undue influence or misrepresentation has been used. It is of importance that control should be kept over the operations of contractors, and the Bill will make an alteration in the existing procedure in this respect."

The motion was put and agreed to.

The Hon'ble Mr. HARTY moved that the Bill be passed.

The motion was put and agreed to.

The Council adjourned to Friday, the 30th October 1906.
